SIGHTING**

Immerse yourself in nature with a knowledgeable registered Maine guide. In 2002 the Katahdin Forest Project, an innovative agreement between the Nature Conservancy and Great Northern Paper, protected more than 240,000 acres of forestland. As we pass through this land of majesty and enchantment (which also happens to be great moose habitat) your guides insight on the natural environment as well as the local community, culture and heritage take center stage, while the backdrop of tall trees, clear water, and fresh air stimulate your senses and nourish your soul!

Adults \$49, Children under 12 \$39. Tours are by canoe, touring kayak, motorboat or van. (Includes a snack.)
