# New England Outdoor Center partners with local businesses to create innovative fall and winter packages

~Tailored packages are designed to support local businesses, increase tourism and provide valuable skills for guests~

MILLINOCKET, Maine - The New England Outdoor Center (NEOC) today officially unveiled their new fall and early winter packages for the 2010-2011 season at <a href="https://www.neoc.com/fallandwinterpackages">www.neoc.com/fallandwinterpackages</a>. The innovative packages are being offered for the first time in the resort's history as a way to accentuate the activities and businesses that surround the four-season resort. In addition to the offerings and accommodations, the packages will provide guests with valuable skills they can take with them long after their stay. Based in Millinocket, Maine since 1982, the New England Outdoor Center has provided visitors from across the world with a one-of-a-kind Maine outdoor experience.

"Through business partnerships in the local community, we are proud to announce our first-ever set of tailored fall and winter packages. We host thousands of guests at our resort each year and with these packages, we are confident we can provide visitors with gifts and skills that will last far longer than their visit. While many people know about our whitewater rafting, snowmobiling and moose tours, we believe these tailored packages will be popular among our current customers and also attract new ones," said Matt Polstein, co-owner of New England Outdoor Center.

The new fall and winter weekend packages range in dates from October - December and start as low as \$109 for adults, \$69.00 for children (ages 12 and under). Each of the weekend adventures includes a theme, hobby or activity for guests to enjoy during their stay in Northern Maine.

The packages are supported by local businesses in the Millinocket area, and provide more exposure for the area retailer shops and their services.
